BIG BARN FUN TIME INSTRUCTIONS!

Preparing Moon Dough™ for playing.

Open a Moon Dough™ poly bag and take out some Moon Dough™. Work Moon Dough™ by squishing, squashing it in your hands. After working the Moon Dough™ for a few minutes, you are ready to mold and create your own barnyard.

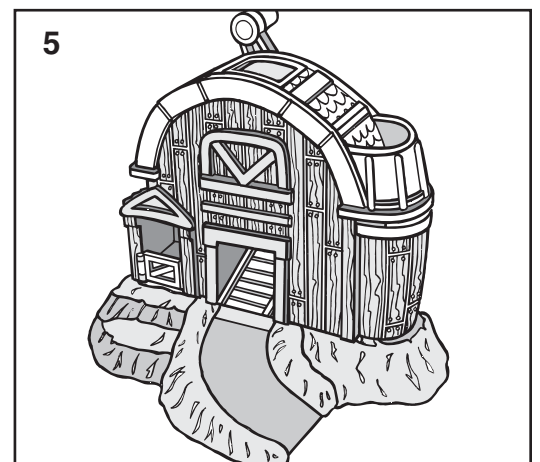

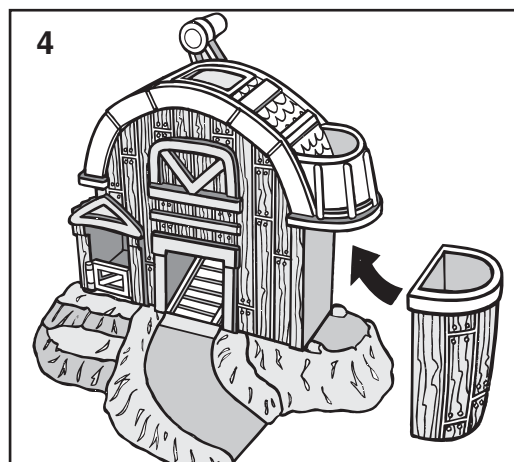

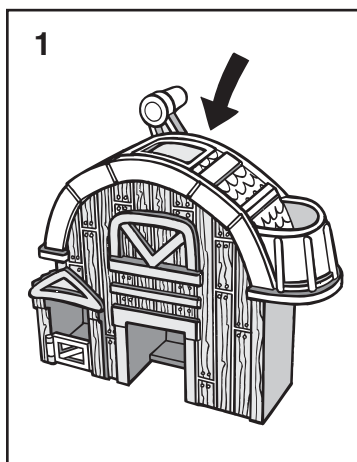

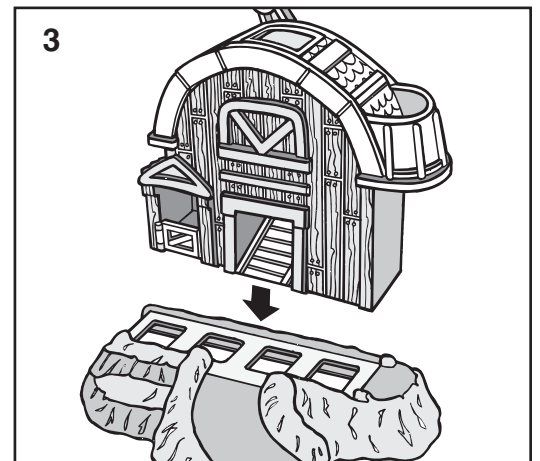

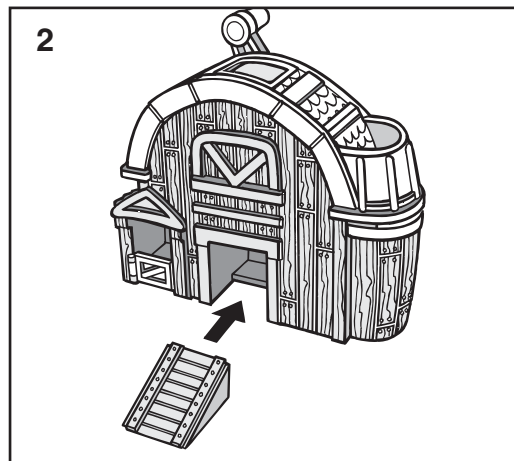

DO NOT add water or liquid to the Moon Dough™ for mixing purposes.

DO NOT allow soap or liquid soap to come into contact with the Moon Dough™.

DO NOT let the molds get wet.

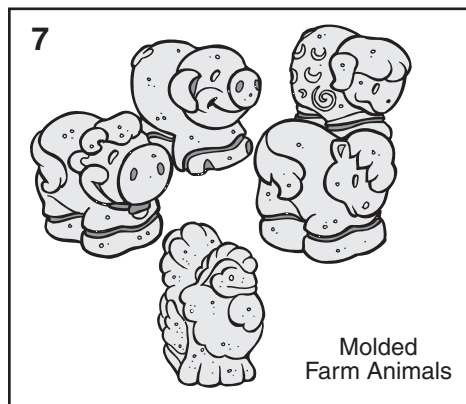

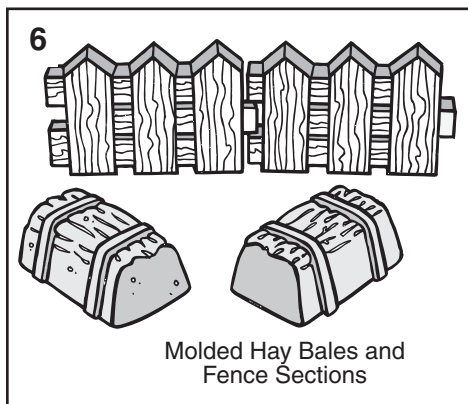

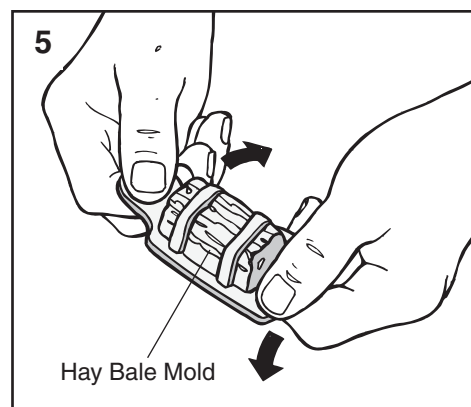

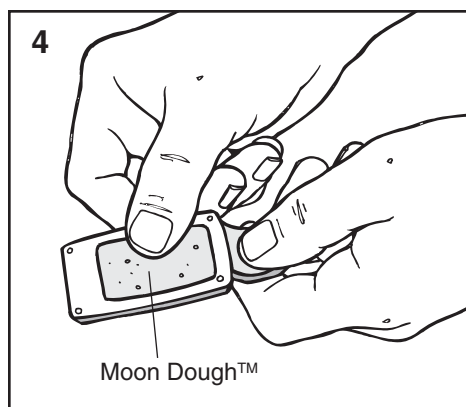

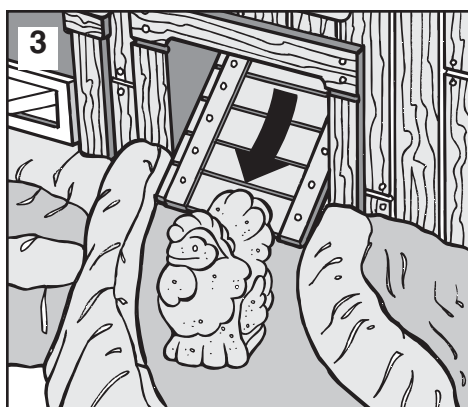

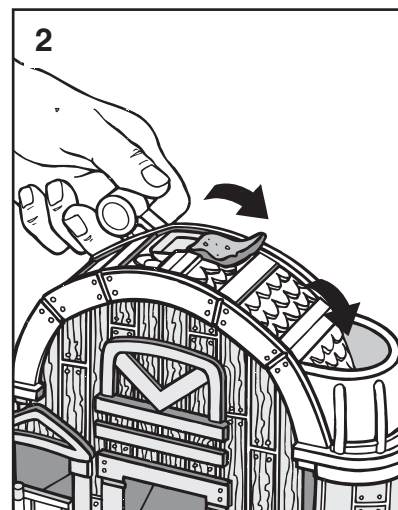

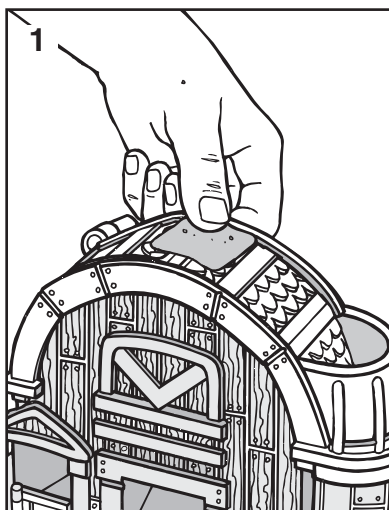

HOW TO ASSEMBLE THE MOLDING BARN!

1. Attach the molding barn maker handle to the barn.
2. Add ramp to barn exit.
3. Add barn to base.
4. Fit silo into position at the base of barn.
5. Completely assembled.

NOW YOU'RE READY TO CREATE USING YOUR MOON DOUGH™ MOLDS!

1. Choose a color of dough and fill an animal mold. Compress the dough with your fingers to fill every mold detail.
2. Turn the handle to access the next animal mold. Excess dough will slide into the silo for future use. Repeat steps 1 and 2 to mold the remaining animals.
3. Animals drop out of the mold and slide down the ramp.
4. Choose a color of dough and fill the hay bale mold. Compress the dough with your fingers to fill every mold detail.
5. Twist or knock filled mold to release the molded hay bale.
6. Repeat steps 4 and 5 to create fence sections.
7. Molded Moon Dough™ animals!

IMPORTANT TIPS: 1. The dough contains a special colourless ingredient that enables it to be moldable. This ingredient can leave some residue on the plastic molds (after many times of use) and may make it difficult to release the dough from the mold. To correct this, it is

advisable to clean the opening with a dry brush under adult supervision. Or for more thorough cleaning, remove the top 2 screws at the back of the barn for better access to the opening. 2. Do not dispose of dough in sink or in toilet bowl. 3. Do not heat or bake Moon Dough™ material.

Please refer to website for additional cleaning and care instructions.
